Adjoining them, in the rear, are two ante-rooms 20 feet by 18 feet, and two interior offices, each with 19½ feet front on Nassau street, and extending 30 feet back, all perfect in the way of light and ventilation. The following diagram represents the basement

The many advantages of this floor are at once discernible to business men. The offices on this floor are highly desirable for all classes, but more especially adapted to Insurance, money brokers, merchants, lawyers, large law firms and where security from fire to legal documents is a desideratum. The two large offices fronting on Futton and Nassau and Ann and Nassau are respectively 55 feet by 24% feet, and the two interior offices are similar to those on the floor above.

The following diagram shows the plan of the second floor, of which the third, fourth, fifth and sixth floors are counterparts. All are fitted with every modern convenience:—
